

Name of organisation: Glenn Banks Youth and Crime Project

Website: <http://www.real-projects.co.uk/>

Description of organisation:

The REAL projects aim to provide alternative learning experiences and opportunities for young people who need additional support with their education.

Details of Project/Visit/Results:

The follow up of a project involving Always a Chance, The Real Project and the Youth Offending Service. We can tell you that it has helped the young people involved not to re-offend and that all those involved have not been involved in crime since. This young man was identified as the 'most likely to offend' in the group. Since participation, he has not offended and has been making better life choices and we have high hopes for his re-integration into education in September, when he will be taking a course at Tresham College.

Please continue to support Always A Chance to support worthwhile causes
